Product explanations
We have produced the special blended original buckwheat, with coopreation from a flour manufacture. By using highly selected matcha (green tea), we have succeeded on making refined frozen green tea soba. It has aromatic flavor. Also, it is ready to be served after boiling for just a few seconds (10seconds to 15seconds). It's very efcient! We are proud to introduce the delicious "Wa" (和) taste filled with aromatic flavor.

How to cook
Put the frozen green tea soba into the boiled water for 10 to 15 seconds. When the soba seperates, it is done. When it is served cold, lightly wash it with cold water to make the texture smoother to eat.
